

Dear Legislator _____:

I care about our community—our jobs, our health care, our schools and our kids—and I know you do too. I also know the state budget is going to be tight this year. Just like my family’s budget, our state budget is about priorities. There are lots of additional sources of revenue—things like combined reporting, restoring the estate tax, removing tax exemptions on services, and others—that would generate billions of dollars. So before you make any cuts to the vital public structures that make our communities such great places to live, work and raise families, I urge you to close loopholes and collect what’s owed first.

Sincerely,
