

Don't Miss These Vital New Curricula and Their Companion Video

The Wisconsin Council on Children and Families, Inc. proudly announces the premiere release of **The Cortex Files!** A 5-part video series to accompany **two** important new curricula: [Development of the Brain: Zero to Three Years](#)

- 1) Family and Consumer Education Curriculum
- 2) Core Science Curriculum

Both designed for Middle and High School students.

Special emphases for biology (**Core Science**), parenting and child care classes (**FCE**). Developed in collaboration with the Wisconsin Department of Public Instruction.

Includes numerous color transparencies, PLUS:

- Lesson plans
- Student and teacher resource sheets
- Student work sheets
- Preassessments and assessments
- Curriculum standards and objectives
- Modifications for special needs
- Extensions for multiple disciplines
- Web sites, bibliography, appendices

Purchase both the curriculum and video for only \$90.00. Purchase them separately for \$50.00 each.

Call 608/284-0580 for more information or visit the website to order.

The video is a parody of the X-files featuring an alien, flying saucer, mummy, time machine, ghost and more hilarious surprises, interspersed with a variety of brain diagrams and animated neuron activity. Designed to keep your students tuned into these important concepts of brain development. Suitable for middle and high school.

These two new curricula:

- Describe the basic structures of the brain
- Explain the function of these structures
- Describe the development of the brain during early childhood
- Describe positive and negative influences on the developing brain
